

7TH INTERNATIONAL  
CONFERENCE ON SMART  
AND SUSTAINABLE  
TECHONOLOGIES

Split and Bol, Croatia (Hybrid)  
July 5-8, 2022

# Meet the Editors Workshop | 6th July, 2022

**Sandro Nižetić,**  
*Moderator*

***„How to prepare high quality research work, usual mistakes, ethical issues,  
i.e. useful insights from EICs?“***

**Mattheos  
Santamouris**

Editor in Chief of „Energy and Buildings”,  
Associate Editor of „Solar Energy Journal”

**Jiří Jaromír  
Klemeš**

Co-Editor-in-Chief of „Journal of Cleaner Production  
and Chemical Engineering Transactions”,  
Editor in Chief of „Cleaner Technologies and  
Engineering and Cleaner Chemical Engineering”,  
Subject Editor of „Energy”

**Petar  
Varbanov**

Co Editor in Chief „Claner Energy Systems  
(Elsevier),  
Associate Editor of the Springer Journal „Clean  
Technologies and Environmental Policy” (Springer),  
Subject Editor of the Elsevier journal „Energy – The  
International Journal”

**Yee  
Van  
Fan**

Associate Editor of „Journal of Cleaner  
Produciton”

***„How to prepare high quality  
review paper?“***

***„How to review paper on  
proper way?“***

'Publish or perish' (POP) is a phrase that describes the pressure put on academics to publish in scholarly journals rapidly and continually as a condition for employment (finding a job), promotion, and even maintaining one's job as defined by Imad A. Moosa in his monograph from 2018. In the Oxford Dictionary of Phrase and Fable, 'publish or perish' is used to refer to an attitude or practice existing within academic institutions, whereby researchers are put under pressure to produce journal publications in order to retain their positions or to be deemed successful. The POP issue is primarily relevant to those working in academic institutions (called academics, academic researchers, or just researchers). However, some of the aspects of POP discussed in this workshop are relevant to non-academic personnel who also seek publications because they are expected to publish, such as those working in medical laboratories, central banks and international organizations (UNCTAD, WHO, IMF, BIS, etc.). This is a condensed description of how important are publication activities. This has been already widely practised by world-leading universities in the past century, however with the nearly exponential growth of researchers and also scientific journals becomes one of the key issues. This workshop presentation gathered a wide range of editors serving a variety of journals and world-leading publishers to be available to share their experience with the attendees:

**Editors in Chief:**

1. JOURNAL OF CLEANER PRODUCTION, Elsevier
2. ENERGY AND BUILDINGS, Elsevier
3. CLEANER ENGINEERING and TECHNOLOGY (CLET) - Elsevier - Golden Access
4. CLEANER CHEMICAL ENGINEERING (CLCE) - Elsevier - Golden Access
5. CLEANER ENERGY SYSTEMS (CLES) - Elsevier - Golden Access
6. CHEMICAL ENGINEERING TRANSACTIONS, AIDIC Milano, Italy

**Associate and Subject Editors:**

1. JOURNAL OF CLEANER PRODUCTION, Elsevier
2. ENERGY, Elsevier
3. CLEAN TECHNOLOGIES AND ENVIRONMENTAL POLICY, Springer

The topics to be discussed cover at least briefly: writing a potential successful scientific manuscript, selection of a right journal and their metrics, various types of paper submission, Selecting and using the right references, similarity and plagiarism, correct novelty reasoning and presentation of the proposed methods and the results, proper conclusions writing, how to handle the reviewing process, final proofing, presentation and promotion of the published paper. Examples of successful publications will be given, with analysis of the features leading to their high impacts. The Workshop is going to be followed by dedicated consultations of specific and individual features.
